

## Silver Lining (David Gray)

G C G C  
Take this silver lining Keep it in your own sweet head  
G C G C  
And shine it when the night is burning red  
G C G C  
Shine it in the twilight Shine it on the cold, cold ground  
G C G C  
Shine it till these walls come tumbling down

### REFRAIN

D C D C  
We were born with our eyes wide open So alive with wild hope now  
D F G  
Can you tell me why Time after time they drag you down  
F G  
Down in the darkest deep  
F E F C  
Fools and their madness all around Know that the light don't sleep

G C G C  
Step into the silence Take it in your own two hands  
G C G C  
And scatter it like diamonds All across these lands  
G C G C  
Blaze it in the morning Got to wear it like an iron skin  
G C G C  
Only things worth living for are Innocence and magic, amen

### REFRAIN

#### 1<sup>st</sup> Verse

### REFRAIN

F C  
Know that the light don't sleep....
