

## Won't Get Fooled Again

E                    DA                    E                    DA  
We'll be fighting in the streets    With our children at our feet  
E                    B                    DA  
And the morals that they worship will be gone  
E                    DA                    E                    DA  
And the men who spurred us on    Sit in judgment of all wrong  
E                    B                    DA  
They decide and the shotgun sings the song

A                    E                    A                    E                    A                    E                    A                    E  
**CHORUS:** I'll tip my hat to the new constitution    Take a bow for the new revolution  
A                    E                    A                    E  
Smile and grin at the change all around me  
D                    B                    D                    B  
Pick up my guitar and play    Just like yesterday  
D                    A                    E                    D                    A  
And I'll get on my knees and pray    We don't get fooled again

E                    DA                    E                    DA  
Change it had to come    We knew it all along  
E                    B                    DA  
We were liberated from the fold that's all  
E                    DA                    E                    DA  
But the world looks just the same    And history ain't changed  
E                    B                    DA  
'Cause the banners, were all flown in the last war

**CHORUS**  
F#                    B  
I'll move myself and my family aside    If we happen to be left half alive  
E  
I'll get all my papers and smile at the sky  
F#                    DA  
For I know that the hypnotized never lie

E                    DA                    E                    DA  
There's nothing in the street    Looks any different to me  
E                    B                    DA  
And the slogans are replaced, by-the-bye  
E                    DA                    E                    DA  
And the parting on the left    Is now the parting on the right  
E                    B                    DA  
And the beards have all grown longer overnight

**CHORUS**  
E                    DA                    E                    DA                    E  
Meet the new boss    Same as the old boss
