VERSE 1

```
D
  Living for the moment
A
  It flashes and fades
               Bm
And takes you down
   G               D    A
Familiar deserted byways

D
  Shelf-stored memories
A
  Lead you where you been

No long ago
      G                   D   A
And guess who's guessing now?
```

Let me back        into your world
Em7                      D/F#
    At the blink of the eye
               G
No uncertain terms

Let me back into your world
```

  You should know
A                 Bm

Let the judges meet their makers

D
  Can't slow down
A                           Bm

A battle cry to treat this absence
```

Let me back         into your world
```

```

VERSE 3

D
  Spent the promises
A                 Bm
  Spent the meantime
       G                D              A
Through ins and outs of halfway house boundaries

D
  Leave this impasse
A                            Bm
  If you're gonna leave anything
     G                        D                 A
Just don't leave here without   speaking your mind

CHORUS

        G     D/F#
Let me back        into your world
Em7                     D/F#
    At the blink of the eye
              G
No uncertain terms
       D/F#           A
Let me back into your world
