Drop D Tuning: **DADGBE**

D **G/D** **D** **G/D** **A** **D**
Now that we love Now that the lonely nights are over

G/D **A** **D** **G/D** **A**
How do we make love stay?

D **G/D** **D** **G/D** **A** **Bm**
Now that we know The fire can burn bright or merely smolder

G/D **A** **D** **C/D** **D** **C/D**
How do we keep it from dying away?

D **G/D** **D** **G/D** **A** **D**
Elusive as dreams Barely remembered in the morning

G/D **A** **D** **G/D** **A**
Love like a phan---tom flies.

D **G/D** **D** **G/D** **A** **Bm**
But held in the heart It pales like the empty smile adorning

G/D **A** **D** **C/D**
A statue with sight----less eyes.

BRIDGE

Moments fleet, taste sweet within the rapture When precious flesh is greedily consumed

G/D **Bm** **D** **Em*** **C9** **Asus4** **A**
But mystery's a thing not easily captured And once deceased, not easily exhumed

Now that we love Now that the lonely nights are over

G/D **A** **D** **C/D**
How do we make love stay?
