Close Up The Honky Tonks chords by The Flying Burrito Brothers

Tuning: E A D G B E

CHORDS

```
Close Up The Honky Tonks-Flying Burrito Brothers
[Intro]
E  E  E  A  A

[Verse 1]
      A                                D
She's in some honky tonk tonight, I know
      E                                     A
She's dancing where the music's loud and lights are low
                               D
In a crowded bar she likes to hang around
       E                                                    A
But as long as there's a honky tonk, she'll never settle down

[Chorus]
   A                           D
So close up the honky-tonks, lock all the doors
E                                    A
Don't let the one I love go there anymore
                           D
Close up the honky-tonks, throw away the key
     E                                          A
Then maybe the one I love will come back to me

[Interlude]
A  A  D  D
E  E  E  A
A  A  D  D
E  E  E  A

[Verse 2]
  A                              D
I wish I had the power to turn back the time
    E                                 A
And live again the hours when she was all mine
                                                 D
'Cause it hurts to see her running with that crowd downtown
       E                                                  A
But as long as there's a honky tonk she'll never settle down

[Chorus]
```

```
   A                          D
So close up the honky-tonks, lock all the doors
E                                     A
Don't let the one I love go there anymore
                           D
Close up the honky-tonks, throw away the key
     E                                        A
Then maybe the one I love will come back to me

[Outro]
     E                                        A
Then maybe the one I love will come back to me
```
