

# Evermore by Taylor Swift

Capo 1

[Intro]

C F C F

[Verse]

C

Gray November

F

I've been down since July

C

Motion capture

F

Put me in a bad light

C

F

I replay my footsteps on each stepping stone

C

Trying to find the one where I went wrong

C

Writing letters

F

Addressed to the fire

[Chorus]

C

And I was catching my breath

C

Staring out an open window

F

Catching my death

C

And I couldn't be sure

F

I had a feeling so peculiar

F

That this pain would be for

C

F

Evermore

[Verse]

C

Hey December

F

Guess I'm feeling unmoored

C

Can't remember

F

What I used to fight for

C

F

I rewind the tape but all it does is pause

F

C

On the very moment, all was lost

Sending signals

F

To be double-crossed

[Chorus]

C

And I was catching my breath

C

Barefoot in the wildest winter

F

Catching my death

C

And I couldn't be sure

F

I had a feeling so peculiar

F

That this pain would be for

C

Evermore

F

(Evermore)

[Bridge]

G

Am7

Can't not think of all the cost

F

And the things that will be lost

G

Am7

Oh, can we just get a pause?

F

To be certain we'll be tall again

G

Am7

Whether weather be the frost

F

Or the violence of the dog days

G

Am7

I'm on waves, out being tossed

F

Is there a line that I could just go cross?

[Bridge]

G

And when I was shipwrecked (Can't think of all the cost)

Am7

F

I thought of you (And the things that will be lost, oh)

G

In the cracks of light (Can we just get a pause?)

Am7

F

I dreamed of you (To be certain we'll be tall again, if you think of all the costs)

G

It was real enough (Whether weather be the frost)

Am7

To get me through (Or the violence of the dog days)

F

(Or the violence of the dog days)

G

(I'm on waves, out being tossed) (I'm on waves, out being tossed)

Am7

C

I swear (Is there a line that we could just go cross?)

C

F C F

You were there

[Chorus]

C

And I was catching my breath

F

Floors of a cabin creaking under my step

C

And I couldn't be sure

F

I had a feeling so peculiar

F

This pain wouldn't be for

C

Evermore

F

Evermore

C

Evermore

F

This pain wouldn't be for evermore

C F

Evermore
