

**Jersey - Mayday Parade** // 2007 // key: Bbm // capo: 1. fret

---

**Am** **F**  
*Chorus:* Cause Jersey just got colder and. I'll have you know I'm scared to death.

**C** **G** **Em**  
That everything that you had said to me was just. A lie until you left.

**Am** **F**  
Now I'm hoping just a little bit stronger. Hold me up just a little bit longer.

**C** **G** **Em**  
I'll be fine, I swear. I'm just gone beyond repair.

*Interlude:* | **Am** | **F** | **C** | **G** **Em** |

**Am** **F** **C**  
1. Let's write a song that we can dance to. Cause they all wanna listen.

**G** **Em** **Am** **F**  
Just to know how it sounds when. I do that thing you know that I do.

**C** **G** **Em**  
When I find inspi - ration. This is me breaking down when.

*Chorus:* Repeat Chorus

*Interlude:* Repeat Interlude

**Am** **F** **C**  
2. Let's write a song that we can sing to. And you can lead the choir.

**G** **Em** **Am** **F**  
And put the hook where it hurts most. And you threw a spark that lit the candle.

**C** **G** **Em**  
That set us all on fire. And sent a flame down the East Coast.

*Chorus:* Repeat Chorus

**F** **G** **Am**  
3. And I should have been your everything. I'm now at the end of my eternity.

**F** **G** **Am**  
And I fall asleep to have the darkest dreams. Cause this just won't seem right to me.  
I close my eyes and beg for peace.

**Am**  
*Bridge:* Jersey just got colder and... Jersey just got colder and...

**Am\***
