

1. I didn't know that I was capable of being happy right now but you showed me how
I didn't know that you were right in front of me until I looked out

Chorus: You make me wanna cry in a good way You make me wanna cry in a good way
You make me wanna cry in a good way You make me wanna cry in a good way

2. You weigh just as much as me, don't you, I can feel it when we touch
I know you've been having nightmares lately and I'm sorry I fall asleep first

Chorus: You make me wanna cry in a good way You make me wanna cry in a good way
You make me wanna cry in a good way You make me wanna cry in a good way
