

Fox In The Snow - Belle and Sebastian // 1996 // key: C#

Intro: | C# | C# | C# | C# |

1. Fox in the snow, where do you go to find something you could eat?
 Cause the word out on the street is you are starving
 Don't let yourself grow hungry now, don't let yourself grow cold, fox in the snow
2. Girl in the snow, where do you go to find someone who will do, to tell someone all the truth before it kills you?
 They listen to your crazy laugh before you hang a right and disappear from sight
 What do they know anyway? You'll read it in a book
 What do they know anyway? You'll read it in a book tonight
3. Boy on the bike, what are you like as you cycle round the town?
 You're going up, you're going down, you're going nowhere
 It's not as if they're paying you, it's not as if it's fun, at least not anymore
 When your legs are black and blue it's time to take a break, when your legs are black and blue it's time to take a holiday

4. Kid in the snow, way to go. It only happens once a year. It only happens once a lifetime make the most of it
 Second just to being born, second to dying too. What else would you do? What else would you do?
 What else would you do? What else would you do?
 Fox in the snow (When your legs are looking black and blue)
 Fox in the snow (It's not as if they're paying you)
 Fox in the snow (When your legs are looking black and blue)
 Fox in the snow (It's not as if they're paying you)
 Fox in the snow, fox in the snow
